

Secondary Instructional Coaches Statewide Learning Opportunity

For all Literacy, Math, 21st Century Teaching & Learning, other Instructional Coaches, and School Leaders.

Presented By

The Pennsylvania Institute for Instructional Coaching (PIIC) in partnership with the PA Department of Education and the Annenberg Foundation

The Workshop

This three day professional learning opportunity will afford coaches, IU PIIC mentors, and school and district administrators from across the state time to learn and network about topics relevant to their work in schools and their goal of increasing student achievement.

Sessions topics will include: best practices for coaches and mentors, data collection and use, evidence-based literacy strategies, and the PIIC model of instructional coaching.

New this time...we are opening up our event to elementary coaches! In addition to six secondary-level coaches, IU PIIC mentors are asked to invite up to three elementary coaches to join us for this learning opportunity. Our professional development will be differentiated to meet the needs of these coaches.

PIIC is a statewide resource for coaches and mentors to develop and support consistent, high-quality classroom instruction and practice. At PIIC, we continually refine our plans and our programs of study so that the IU mentors can deepen their understanding of instructional coaching, recognize their critical role in supporting teacher leaders, and to focus on the impact that instructional coaching is having on transforming schools across the state. The PIIC instructional mentors work with instructional coaches to help teachers improve instructional practice that will improve student engagement and academic outcomes. Our overarching theme is to provide greater opportunities for mentors and instructional coaches to learn and network, as well as to contribute to the ever expanding knowledge base of instructional coaching and mentoring.
